BBVA Mexico Boosts Conversions with Copilot-Powered Brand Campaigns

The goal

With a strong presence in over 25 countries, BBVA is one of the world's leading financial institutions. In Mexico, it holds the distinction of being the country's largest bank, known for its scale, digital innovation and customerfirst approach. As part of its ongoing digital transformation, BBVA Mexico set out to accelerate product acquisition and drive qualified B2B leads through performance channels. In a competitive digital banking landscape, the challenge was clear: how to reach the right users, at the right moment, with the right message.

The solution

To meet this goal, BBVA activated a dedicated brand search campaign on Microsoft Advertising. The strategy focused on maximizing impression share for high-performing branded queries, while A/B testing Copilotgenerated ad assets identify topperforming creative combinations. Continuous keyword and bid optimization ensured the campaign remained both efficient and effective. "Working with Microsoft Advertising has helped us strengthen our digital acquisition model, especially across SMEfocused products. We've seen a strong return on brand campaigns and a very agile testing environment."
